1. Call to Order

Chair Woollatt called the virtual video-conference meeting to order at 9:11 a.m.

a. Board member Roll Call and Declaration of City/Township/Village, County and State from which they are attending: Trevor Woollatt, calling from Cascade Township, Kent County, James Harless, calling from Webster Township, Washtenaw County, Sybil Kolon, calling from Manchester Township, Washtenaw County, Christy Maier, calling from Dexter Township, Washtenaw County, Sue Shink, calling from Northfield Twp, Washtenaw County, Joe Meyers, calling from City of Ypsilanti, Washtenaw County, Karen Lancaster, calling from City of Hillsdale, Hillsdale County.

2. Public Comment

There was no public comment.

3. Approval of Agenda

S. Shink moved to approve the revised agenda, adding 1655 LeForge grant application as Business Item #3 (2nd J. Meyers), and the motion passed unanimously.

4. Approval of November 18th, 2021 Meeting Minutes

J. Harless pointed out an extra zero in Section 3, of the $8,000 DCC membership fees. J. Harless moved to approve the minutes with the correction, (2nd C. Maier), and the motion passed unanimously.

5. Board Member Conflict of Interest Disclosure

None declared.

6. Business

1. 20 N. Adams, Phase I, II, BEA, DDCC, Environmental Assessment Grant – Action

Staff reviewed the application from Mr. Sloan, who has a Purchase Agreement to acquire the property, and is opening a coffeeshop north of this location, and this location will be roasting, classes, and other related uses.

C. Maier asked J. Harless about petroleum, who responded there could be concern with out-gassing from the slab and walls.

T. Woollatt commented about the presence of tanks, and if Ground Penetrating Radar should be included. The applicant indicated he's not sure there were tanks based on old aerials.

J. Meyers offered support for the application, as this site has been used for dry cleaning.

J. Harless moved to approve the application for $13,700 for 20 N. Adams, (2nd J. Meyers), and the motion passed unanimously.

2. 303 N. Fifth, 312 Detroit Street Brownfield Project Introduction and Form Brownfield Plan Review Sub-Committee – Discussion

N. Voght referred to Troy Helmick with SME and Mr. Harshe and Mr. Fitzimmons, representing the developers. Mr. Voght reviewed the proposed mixed-use project, and the Brownfield Plan, which seeks about $2.6M in Environmental Eligible Activities. Fourteen condos are proposed, with ground floor commercial.

The developers and environmental consultant, Mr. Helmick, talked about the difficulty in drilling in this area, and that the soil gas information was revealing. S. Shink stated this will be an impactful project and asked about the price point of the condos, and if any affordable housing is included.

Tom Fitzimmons introduced himself, saying he was hired by the developer to carry out the development, as he has prior experience in building condos in downtown Ann Arbor. MAVD is the main developer. They plan to build to LEED Gold Standard. The pricing will be 550 to 650 per s.f., and a wide range of sizes, between 1,000 and 2,500 s.f.

Mr. Helmick as T. Woollatt, the Chair, about whether he was involved professionally with previous tank removal on the site.

Mr. Voght asked for volunteers on the sub-committee, and J. Harless, S. Shink, and C. Maier, volunteered.

3. 1655 LeForge Road Phase I Environmental Assessment Grant Application, Ypsilanti Community Schools – Action

Mr. Voght explained the late addition to the agenda, adding this grant application. The previous site at 2440 Clark was send to the DCC, but they had questions and concerns that the other site be redeveloped, and the school district's timeline is not knows, so they approved it with reservation. Staff recommends that the Board approve this grant request, given the hesitancy a the DCC.

J. Meyers moved to approve the grant application for Phase I and Title work for $3,000 (2nd C. Maier), and the motion passed unanimously.

4. LBRF Capture Policy Revisions – Discussion/Action

Staff referred to the memo provided, with background information on how the Board has captured LBRF in previous Brownfield Plans, and how a more consistent policy and approach in the future would be beneficial and easier to communicate to our governmental partners.

J. Harless shared some recommendations he has regarding capture, where it would be 10% annual capture, which would depend on annual assessments and capture, and then 15% of developer reimbursable activities in the Brownfield Plan, which would be stated as a fixed amount. He compared the LBRF capture in previous Plans we approved against this new formula, and the results were very similar amounts.

The Board had further discussion on the proposed formula, and J. Harless moved to revise the LBRF Capture Policy to state 10% annual capture, and then a lump sum after developer reimbursement calculated as 15% of developer reimbursable Eligible Activities as stated in the Brownfield Plan, and direct staff to revise the LBRF Capture Policy section of the Policies and Procedures accordingly, and send out to the Board. C. Maier seconded the motion, and it passed unanimously.

5. Approval of 2022 Meeting Calendar – Action

Staff referred to the 2022 meeting calendar in the packet, noting that in-person meetings will be required, unless the State Legislature intervenes. S. Shink moved to approve the 2022 meeting schedule (2nd K. Lancaster), and the motion passed unanimously.

6. November Financial Report – Action

N. Voght stated this is for information only, and the Agenda misstated that "action" is required.

7. Other Business

S. Kolon mentioned the Federal Screw Project and she had worked on the Liable Party request 8 years ago, and wonders whether the project will proceed at this point.

J. Harless asked if the developer of Federal Screw had planned to set up a Conversancy to facilitate development of the park. He mentioned that Roxbury did this with Broadway Park in Ann Arbor.

8. Public Comment:

The Board asked if anyone attending had additional public comment, and no one responded.

9. Adjournment:

S. Shink moved to adjourn the meeting at 10:12 a.m. (2nd J. Harless), and the motion passed.

These minutes were approved by the Washtenaw County Brownfield Redevelopment Authority at the _____, 2022 meeting, held at 200 N. Main, lower level conference room, downtown Ann Arbor.

Washtenaw County Brownfield Redevelopment Authority

Agenda Summary Memo
REGULAR IN-PERSON MEETING

9:00 a.m. Thursday, February 10th, 2021
200 N. Main, Lower Level Conference Room, Ann Arbor

TO: Washtenaw County Brownfield Authority
FROM: Nathan Voght, Washtenaw County Brownfield Coordinator
DATE: February 3, 2022

This regular board meeting will be held in-person, at 200 N. Main, lower level Conference Room, downtown Ann Arbor. Masks will be required, according to current Washtenaw County policy. Any public wishing to participate will have to attend the meeting in-person, until the technology is deployed to allow remote participation/attendance.

Business Items:

1. **Leslie Science Center, City of Ann Arbor, LBRF Eligible Activities Approval – Action**

   The Board awarded a $535,438 LBRF grant to the City of Ann Arbor in October 2019 to assist with remediation of the Leslie Science and Nature Center, at 1831 Traver Road. A Brownfield Plan was approved, which included the costs. The Board has reimbursed $470,207.55 of the grant, to-date, with expenses through the end of 2020. The City of Ann Arbor's environmental consultant, Patti McCall, with TetraTech, as submitted an additional $36,092.48 in LBRF expenses for reimbursement, including expenses incurred by the City between January and October 2021. This will bring the total reimbursed to $506,300.03.

   Here is Ms. McCall's email, which included the details of the expenses (attached is the summary spreadsheet, and here is a link to a PDF of the TetraTech detailed invoices):

   "Attached is the request for reimbursement for Leslie Science and Nature Center in the amount of $36,092.48. This spans January – October 2021 and the work is primarily additional air monitoring and investigation required from EGLE.

   I've attached two pdfs; similar to what I did previously, but updated.

   Reimbursable Brownfield Eligible Costs through October 2021

   - *The first four sheets are the edited original reimbursable expenses request from the Brownfield Plan. It includes an ongoing summary by task. Black text is proposed, gray text is what was previously reimbursed and blue text is the current request.*
   - *The fifth page is a breakdown of our invoices.*
   - *Pages 6 through 10 are the timesheet comments and charges by task and category.*

   Tetra Tech Invoices with Backup Jan 2021 – October 2021.

   - *The first two page is an account of paid invoices from our accounting system, with the invoices during this reimbursable period identified.*
   - *The rest of the document are Tetra Tech invoices with backup, bookmarked by invoice number and month.*

Please let me know if you have any questions. We have completed all the field and monitoring requested and are finalizing a report; hopefully the last."

Staff has reviewed the information and finds it in order. Note the VI task in the Brownfield and original LBRF award has exceeded the originally anticipated budget due to significant more coordination with EGLE on the VI concerns for the facility. However, the reimbursement request does not exceed the grant award.

2. Federal Screw Site, City of Chelsea, Project Update – Discussion

Staff has been coordinating with the City, EGLE, and a local developer, Joe Ziolkowski, on a new proposal for the Federal Screw Site. He proposes to acquire the site, develop a park, and the City of Chelsea will then acquire and maintain the park. There has been ongoing coordination with EGLE on remaining Liable Party responsibilities, and site access with the family of Rene Papo, the original developer who passed away in 2019.

Staff invited Mr. Ziolkowski to attend the meeting and discuss plans with the Board, and potential grant assistance for site investigation. The City of Chelsea is currently considering the concept of a park at this location and has not committed yet. They have retained SME to represent City interests as this process unfolds.

Here is an article from mid-December about the project: https://thesuntimesnews.com/g/chelsea-mi/n/55767/possible-new-life-old-federal-screw-works?fbclid=IwAR3RtbHpKOHkuQNHb5ZisvNXs5It0wKax36KwVQ-DJh7wcfQell4_E-AC3M

3. January 2022 Financial Report – Action

Please see the attached financial report, which includes final 2021 (mostly winter 2021 tax capture) from the City of Ann Arbor. Project balances have been updated to reflect these deposits. One LBRF capture transaction is requested for the Michigan Inn project, where the developer has been fully reimbursed, and we are in the LBRF capture phase.

Administrative Fees' calculations and capture will be completed once we get capture amounts from Saline, Chelsea, and Ypsilanti projects. This is because we often have to take proportionally less (because Act 381 caps Admin) than the maximum Admin capture amounts as stated in the approved Brownfield Plans, and this done across all Plans that are actively capturing TIF in a balanced way.

There were 16 active projects (capturing TIF) in 2021, therefore allowable Administrative Fees capture is $175,000 + 10% more for having a regional authority, which is now $192,500 (up from $165,000). This is great news!

General Updates

- We will be meeting in person starting with the February 2022 meeting. Once the technology is set up in the meeting room, we will have the option of allowing public participation remotely, subject to the Board's discretion.

- The Rockwell Building project has had some delays in financing, so will likely not go to the MSF Board until later this spring.

- The Brownfield Plan for the 3874 Research Park Drive brownfield project, to be Sartorius' new bio-tech location, was reviewed by the Board's Sub-Committee over a month ago, and on January 31st, to the City of Ann Arbor's Brownfield Review Sub-Committee (council members Erica Briggs, Cathy Griswold, Jen Eyer, and Julie Grand), where changes were requested to the Brownfield Plan. Some Non-Environmental Activities will be removed, LBRF Capture will be increased to match current policy of 10% annual capture and lump sum of 15% of developer reimbursable activities at the end. A final draft of the Brownfield Plan will be sent to the Sub-Committee for any final comments, before going to Ann Arbor City Council.

- The Detroit St/N. Fifth condominium project in Ann Arbor was informally presented to the Authority in December, and a draft Brownfield Plan reviewed by the Authority's Sub-Committee in January. Revisions to the Brownfield Plan are being made. The updated draft will go back to the Sub-Committee, and then to the City's Brownfield Review Committee.

- Here is a large spreadsheet from the MEDC from calendar year 2020 of the annual reporting of all the Brownfield Authorities in the State. Morgan Foreman forwarded this to staff, which had never received this report prior.

MICHIGAN STRATEGIC FUND

MEMORANDUM

DATE: January 12, 2022

TO: Members of the Michigan Legislature

FROM: Quentin L. Messer, Jr., President
Michigan Strategic Fund

Liesl Eichler Clark, Director
Michigan Department of Environment, Great Lakes, and Energy

SUBJECT: Brownfield Redevelopment Financing Act - CY 2020 Legislative Report

The Brownfield Redevelopment Financing Act, 1996 PA 381, as amended, requires the Michigan Department of Environment, Great Lakes, and Energy (EGLE) and the Michigan Strategic Fund (MSF) to submit a report annually to each member of the Michigan Legislature as provided in Section 16(4). Pursuant to this requirement, attached is the Calendar Year 2020 Legislative Report.

Out of 288 Brownfield Redevelopment Authorities (BRAs), 230 have completed the reporting requirement, for a compliance rate of 79.9 percent. Of the 58 BRAs that did not complete the reporting requirement, 35 provided the required reporting specific to this year but did not include the new reporting requirement identifying the state and local capture approved for all reported sites. Twenty-three (23) did not complete reporting for all of their metrics prior to the report deadline. The MSF and EGLE will withhold financial support from these jurisdiction's future projects until reporting is completed.

Please contact the Michigan Economic Development Corporation Office of Government Relations at 517.335.1847 if you have any questions.

Brownfield Redevelopment Financing Act Report
Calendar Year 2020

The Brownfield Redevelopment Financing Act, 1996 PA 381, as amended (Act 381), requires the Department of Environment, Great Lakes, and Energy (EGLE) and the Michigan Strategic Fund (MSF) to submit an annual report to each member of the Legislature as provided in Section 16(4). There are a total of 288 Brownfield Redevelopment Authorities (BRAs) registered with the Office of the Great Seal in the State of Michigan, 230 have completed the reporting requirement, and 58 BRAs have not completed the reporting requirement, for a compliance rate of 79.9 percent. Of the 58 BRAs that did not complete the reporting requirement, 35 provided the required reporting specific to this year but did not include the new reporting requirement identifying the state and local capture approved for all reported sites. Twenty-three (23) did not complete reporting for all of their metrics prior to the report deadline. The MSF and EGLE will withhold financial support from these jurisdiction's future projects until reporting is completed.

Act 381 authorizes municipalities to create a BRA. These BRAs develop and approve brownfield plans, which promote revitalization of brownfield properties through the use of tax increment financing. A brownfield plan will identify properties on which specific eligible activities will be conducted, that will result in the increase and capture of ad valorem and specific taxes. In most cases, properties are identified by the municipality in conjunction with a developer or company interested in redeveloping that property. The developer or company who rehabilitates the property invests funds into the project to mitigate brownfield conditions and is then repaid for their brownfield related investment via capture of the increased taxable value. The jurisdiction continues to receive the predevelopment taxes (determined by the base value when the brownfield plan is initially approved) until the brownfield eligible costs are reimbursed per the approved plan. At the end of the reimbursement period, the jurisdiction will receive tax revenue from the property that includes both the predevelopment taxes and the incremental taxes generated by the new investment.

A property eligible for brownfield tax increment financing is either a "facility" [as defined in Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA)], "blighted," "functionally obsolete," a "historic resource" property, is a "transit-oriented development" or "transit-oriented property", is part of a "targeted redevelopment area" as defined in Act 381, or property that is adjacent or contiguous to eligible property as described in the Act.

Approval from EGLE is required for all Act 381 work plans for projects where taxes levied for state school operating purposes will be captured to pay for environmental eligible activities, such as due care and response activities under the NREPA.

Approval from the MSF is required for all Act 381 work plans for projects where taxes levied for state school operating purposes will be captured to pay for non-environmental eligible activities, such as demolition, lead, asbestos or mold abatement, site preparation, and infrastructure improvements that directly benefit the eligible property.

Local jurisdictions may also approve brownfield plans that only utilize local tax capture to reimburse eligible activity costs and forgo state tax capture for reimbursement (local-only plans).

To enable legislators to easily identify projects within their respective districts, the data is being presented by county with the address of each brownfield project detailed in the report. The information is based on approved local-only plans and Act 381 work plans in which tax increment revenues (TIR) were collected in the 2020 tax year.

A total of 139 BRAs reported that they did not collect or reimburse any TIR for the 2020 tax year. A total of 91 BRAs had either local-only plans or Act 381 work plans actively collecting and/or reimbursing TIR across the state. The total amount of TIR collected during 2020 was $82,480,158 resulting from a cumulative increase in taxable value of $1,765,440,014 at these designated project sites.

Of the actively collecting Act 381 work plans, 78 plans reported only environmental expenditures (for eligible activities approved by EGLE), 137 plans reported only non-environmental expenditures (for eligible activities approved by the MSF), and 101 plans reported both environmental and non-environmental eligible activity expenditures. There were also 185 local-only plans with expenditures, that were reported as actively collecting.

The data is self-reported by each BRA. A sample of approximately 15 percent of the BRAs reporting tax capture have been validated by EGLE staff.

The State Brownfield Redevelopment Fund (SBRF) was created in accordance with Section 8a of Act 381 and includes capture of 50 percent of taxes levied for state education tax purposes from each eligible property included in a brownfield plan after January 1, 2013. The 2020 reporting year is the sixth year in which the fund has received payments. Up to 15 percent of the amounts deposited annually into the SBRF may be used to pay administrative costs to implement the Act. Through November of 2018, these funds were used to reimburse the MSF for the cost associated with the Act 381 reporting portal, which is now fully reimbursed. Currently, the 15 percent administrative portion and the remaining 85 percent of the funds for projects are collected for the SBRF and are distributed to the MSF and EGLE per Section 8a(3)(b-c) of Act 381. State Brownfield Funds collected to date are $2,963,962. EGLE has an existing program for the use of these funds and MSF is developing a grant and loan program for the future use of the funds.

In 2017, Act 381 legislation was amended to include Transformational Brownfield Plans (TBP). In addition to property tax capture, TBPs allow construction period sales and use tax exemptions and capture of construction period income tax revenues, as well as post-construction income and withholding tax capture. Two TBP projects have been approved to date – one project located in the City of Detroit was approved in 2018 and a second project located in the Village of Vicksburg was approved in 2019.
